You are invited to join the Data Curation Education and the Socio-Technical Data Analytics programs for an informational Meet-N-Greet session! This will be an opportunity to meet faculty who teach DC/SODA courses, advisors who work with DC/SODA students and other GSLIS students interested in data curation and socio-technical data analytics. We will be discussing DC/SODA's upcoming plans for spring semester and the 2014-2015 academic year, as well as answering any questions that you may have. We look forward to seeing you there! Want more information? Please contact Megan Senseney: mfsense2@illinois.edu

5:00-7:00 pm – Film Screening: Library of the Early Mind (*CCB – Room 24 LIS*)
Fan of Brian Selznick's? Or maybe Lemony Snicket's? *Library of the Early Mind* is a documentary film exploring the "art and impact of children's literature on our kids, our culture, and ourselves," featuring dozens of children's authors and illustrators talking about their work and its impact. Refreshments will be served; please email ccboutreach@illinois.edu if you plan to attend.

7:00 pm-11:00 pm – GSLIS Gamers Game Night (*Room 131 LIS*)
The GSLIS Gamers are students, faculty, staff, alumni, and friends of the Graduate School of LIS at the University of Illinois, Urbana-Champaign. We share an interest in face-to-face games that are not mediated by computers or other electronic devices. Come join us for a game! For more information, email Dave Dubin (ddubin@illinois.edu) or go to the GSLIS Gamers website: http://people.lis.illinois.edu/~ddubin/games.html

You must RSVP for this event. Please do so by February 21st by emailing Sharon Johnson sdjohnso@illinois.edu or phone 217-244-6473. Boxed lunches will be provided for those attending in person. Please advise if there are any dietary restrictions. Those joining the discussion remotely will be provided with a local and toll-free number for dial-in and instructions for connecting to Microsoft Lync for web conferencing. For more details about the session, speakers and the 4th Annual Student Applied Poster Session, see http://www.lis.illinois.edu/events/2014/02/28/gslis-corporate-roundtable.

4:00-5:00 pm – CIRSS Seminar – Session on BitCurator & Digital Forensics with Porter Olsen (Room 126 LIS)
Take a moment and open your bottom desk drawer, the one with your old files in it. Rummage around for a bit and push way back until you see the inevitable papers, notes and detritus that have slipped out of various file folder and now lay at the bottom of the drawer. You will undoubtedly find papers back there, but you may also have a floppy disk or two, maybe a CD-ROM from a project long since set aside, or perhaps a flash memory card that has slipped between the folders. However, unlike the paper that surrounds them, these digital media are increasingly inaccessible as the hardware and software needed to access the data they contain are lost to disrepair, obsolescence and bit rot. It is worth taking a moment, while it is still at least possible to recover the data on these legacy drives, to think about what they contain: drafts of work since published, data accumulated over the course of a project, images and design work once painstakingly pored over. Like the leavings at the bottom of a drawer, these digital objects are frequently “what falls out” as we create, research, record and publish our digital work.
Drawing on examples from a number of disciplines, this talk addresses both the necessity of preserving our digital heritage contained on legacy media and the means by which that preservation can be accomplished using the BitCurator environment, which is a customized Linux distribution designed to bring open source digital forensics tools to collecting institutions. The BitCurator environment is the product of the BitCurator project: a joint effort led by the School of Information and Library Science at the University of North Carolina, Chapel Hill (SILS) and the Maryland Institute for Technology in the Humanities (MITH) to develop a system for collecting professionals that incorporates the functionality of many digital forensics tools.

Porter Olsen is a research faculty member at the Maryland Institute for Technology in the Humanities (MITH) where he is the Community Lead on the BitCurator project, a Mellon funded project to bring digital forensics tools and techniques to collecting institutions working with born-digital material. Simultaneously, he is a Ph.D. candidate in the English Department at the University of Maryland studying digital humanities and postcolonial literature.

6:30-8:00 pm – SLA Career Panel at Big Grove Tavern

We invite members of the GSLIS and library communities to join us for drinks and hors d’oeuvres at this annual SLA networking event. We have an exciting panel of librarians from a variety of information settings joining us to share about their unique careers:

5. Advising
Individual advising with GSLIS Advising Coordinator, Meg Edwards, and/or members of the faculty is also encouraged. Send an e-mail (advising@support.lis.illinois.edu) in advance to make arrangements.

6. Conflicts
Taking classes that have conflicting on-campus days should be avoided if possible. If you have a conflict with two LEEP classes, you should contact both professors and negotiate which sessions you will attend. You may also be required to schedule an extra session and/or make-up lost work. Since LEEP classes meet on-campus only once, students with on-campus class conflicts should attend their LEEP class (and arrange to make up their on-campus class work).
7. **Extracurricular Activities**
If you're looking for extracurricular activities, check out events across campus at 
[http://illinois.edu/calendar/list/7](http://illinois.edu/calendar/list/7)

8. **Campus Parking**
Parking on-campus is limited. Plan ahead! All campus parking meters cost $.25 for 15 minutes ($1/hour).

*University parking:*
Ten-hour university meters are located at the main library lot and on the bottom level of the parking structure on the corner of 6th and John. These are monitored 6am-5pm M-F.

All meters and university spaces are available free of charge (except those with 24/7 rental signs) evenings/weekends including the back lot (C-5), the parking garage in front of GSLIS (C10) and the parking lot at the corner of 6th and Chalmers (C9). Daily parking tags for meters are available for $12. They may be purchased through Campus Parking. Stop-by the office located at 1110 W. Springfield, Suite 201 (8-5 M-F) or call 217-333-3530.

*City parking (on the street):*
Two-hour city meters are available around GSLIS. These are monitored 7:00 am-9:00 pm, Monday through Saturday and are free on Sundays.

Additional information is available at [www.parking.illinois.edu](http://www.parking.illinois.edu)

9. **LEEP On-campus Housing**
For information on housing options, see “Announcements & News” under the GSLIS Community Forum in Moodle.

10. **Smoke-Free Campus**
As of January 1, 2014, smoking is prohibited on all campus property at the University of Illinois at Urbana–Champaign, both indoors and outdoors, in University-owned vehicles and in privately-owned vehicles parked on campus property. ([http://www.campusrec.illinois.edu/Smoke-Free/](http://www.campusrec.illinois.edu/Smoke-Free/))

11. **Questions/Suggestions**
Hard copies of the final on-campus schedule and campus maps will be available beside the message board in the East Foyer of LIS. If you have any questions or suggestions, please e-mail lcsmith@illinois.edu.
